SCHOOL DEVELOPMENT - E-Safety Focus 2018/19

E-Safety is a focus on our School Development Plan this year and all our teachers have just received training. This training has given teachers the necessary expertise in teaching online safety from P1-7. The use of this programme is designed to empower pupils to think critically, behave safely and participate responsibly in our digital world. Online safety is not just restricted to the Computing Curriculum. Our scheme provides great opportunities to approach a range of key online safety issues such as cyber bullying, safe social networking, healthy digital behaviours and privacy/online reputation.
